

Need Help Getting Started in the Appraisal Business?

The MDR Committee (Membership Development and Recruitment) of the Northern California Chapter of the Appraisal Institute has expanded its services to provide guidance to individuals who are considering and/or pursuing new careers in the real estate appraisal profession. These services include assistance with the licensing process, information on membership in the Appraisal Institute, and advice on finding entry-level positions in the industry. We can offer you experienced insight into the appraisal profession such as the future of the industry, residential vs. non-residential appraisal practice, areas of specialization, networking, etc. We are available to answer any questions you may have about getting started. We can also provide you with all of the necessary OREA forms and the OREA licensing handbook, a list of the requisite classes for current and 2008 AQB licensing requirements, and references for study-guides to help you prepare for the license exams.

So, if you are contemplating a new career as a real estate appraiser, please contact one or more of the members of this committee so that we can help set you on the right path to establishing yourself in this diverse and rewarding profession. Our services are available to everyone, and are completely free of charge.
